

Figure 1 (prior art)

Fig. 2

```
/**
 * This object that does something important()
 * It does the important something by doing things of lesser importance
 * other things also do things
 */
double dVariable;
dVariable= 1 // declare a variable and set it to 1
int nVariable = 1 // comment
210
200
```

The diagram consists of two lines. One line starts at the number '210' and branches to point at 'dVariable=' and 'int nVariable ='. The other line starts at the number '200' and branches to point at '// declare a variable and set it to 1' and '// comment'.
